Appropriations Requests for Legislatively Directed Spending Items

Date Submitted: 04/10/2026

1. Sponsoring legislator's full name:

Senator Darrin Camilleri

2. Cosponsoring legislators' names (if applicable):

Darrin Camilleri

3. Intended legislatively directed spending item recipient:

City of Taylor

4. Physical address of legislatively directed spending item recipient and the intended location of the project or activity:

23555 Goddard Rd, Taylor, MI 48180

5. The recipient's employer identification number:

38-6006926

6. Requested amount of the legislatively directed spending item:

\$2,000,000.00

7. What is the purpose and how does the legislatively directed spending item provide a public benefit that is an appropriate use of taxpayer money?

The City of Taylor is requesting financial support to modernize its emergency communications and dispatch operations through implementation of a Next-Generation 911 (NG911)-compliant, cloud-based system. The project will replace aging, facility-dependent dispatch technology with a modern platform designed to improve reliability, interoperability, and continuity of operations for emergency and non-emergency calls. The City's current dispatch environment is largely facility-dependent, limiting redundancy and the ability to maintain operations during power outages, network disruptions, or facility impacts. These are risks that Next-Generation 911 systems are specifically designed to address. Taylor is the largest community in the Downriver area and serves as a primary backup Public Safety Answering Point (PSAP) for neighboring jurisdictions. As a result, Taylor's emergency

communications infrastructure plays an important regional role during routine operations as well as large-scale incidents, severe weather events, or facility disruptions. Multiple regional public safety, education, healthcare, labor, and federal law enforcement partners rely on Taylor's ability to maintain uninterrupted call-taking and dispatch services when redundancy or mutual aid support is required. The proposed NG911 system will support remote and alternate-site call-taking, enhanced interoperability, and unified handling of voice, text-to-911, and data-based emergency communications. These capabilities will strengthen coordination among police, fire, emergency medical services, and partner agencies and ensure that emergency communications remain operational during disruptive events. The system will also support dispatcher workforce resilience by enabling flexible staffing and continuity of operations during emergencies that limit access to the primary dispatch facility. Planning for system modernization is underway, and the City is prepared to advance procurement and implementation upon receipt of funding. Nationwide, public safety agencies are transitioning from legacy 911 infrastructure to Next-Generation 911 systems to support modern call types, improve resiliency, and ensure continuity of operations during emergencies. This project does not include building construction or facility upgrades and is limited to eligible emergency communications technology, software, and implementation costs.

8. Has the legislatively directed spending item previously received or been awarded any of the following types of funding in the past 5 years? If so, how much? Check all that apply:

N/A

Amount

N/A

9. Estimated time frame for completion of the legislatively directed spending item project:

Within one year of funds disbursement.

10. Is the recipient a nonprofit corporation?

Yes

Additional Information for Nonprofit Corporations (if applicable)

The answer to questions 1 to 3 must be "Yes" for the nonprofit corporation to qualify for a legislatively directed spending item.

1. Has the nonprofit corporation continuously operated in this state for the preceding 36 months?

Yes

2. Has the nonprofit corporation had a physical office in this state for not less than the preceding 12 consecutive months?

Yes

3. Does the organization have a board of directors?

Yes

4. List all of the officers and active members on the board of directors:

Tim Woolley - Mayor Charley Johnson - Chairman Ron Thiede - Chair Pro-Tem
Christian Armstrong - Council member Dan Wallace - Council member Gerald
Thomas - Council member William Patts - Council member Chris Clark - Council
member

Certification By Sponsoring Legislator

"I certify that my immediate family members, legislative staff members, and I have no direct or indirect pecuniary interest in the requested legislatively directed spending item."

"I certify that the intended recipient of this legislatively directed spending item is not a for-profit entity."

"I certify that the information in this form is true to the best of my knowledge."

Senator Darrin Camilleri
